# Be Prepared

Each year, many people are killed or seriously injured by severe storms despite advanced warning systems.

Whether at home or on the job, heed warnings and make decisions early—

***It could make the difference between life and death!***

## What You Can Do Before Severe Weather Strikes

- Have a plan for your home, school and work
- Identify a safe place for shelter
- Have frequent drills
- Listen to radio or television information
- Check on the disabled and elderly
- Find appropriate cover when outdoors

***Seeking shelter might be the most important decision you ever make.*** ☀

**AN IBEW SAFETY REMINDER**
